**Summary of reasons
for classification:**

The computer image file printout *13yo julia shaved pussy ex-girlfriend 7th grade takes pics of self pedo kdquality ls magazine te* is classified as:
Objectionable.

The printout promotes and supports the exploitation of children and young persons for sexual purposes. It contains a sexual image of a girl between thirteen to fifteen years of age. The pose focuses the viewer's attention on her naked body, particularly her breasts and genitals. Combined with the text associated with the publication a sexual reading of the image is unavoidable. Its purpose is to sexually titillate or arouse people with a sexual interest in children and young persons. By presenting a sexualised image of a girl, the publication encourages and validates this sexual interest.

The classification of this publication interferes with the freedom of expression as set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's clear intention in s3(2) of the Films, Videos, and Publications Classification Act 1993. The classification is a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of children and young persons for sexual purposes.
